

INVITATION TO TENDER FOR THE DEVELOPMENT AND DEPLOYMENT OF LOCAL CONTENT FOR E-LEARNING

1. INTRODUCTION

The Universal Service Provision Fund (USPF) was established by the Federal Government of Nigeria to facilitate the achievement of national policy goals for universal service and universal access to Information and Communication Technologies (ICTs) in rural, un-served and under-served areas in Nigeria.

Over the years, the USPF has implemented several projects across the country to promote ICT life style and inclusion. In order to improve the sustainability of these projects, the USPF wishes to partner with local companies to develop and deploy local content and application in some of the projects. Adequate funds are made available in its 2016 budget to meet this purpose.

2. PROJECT DESCRIPTION

The Local Content Development and Deployment project will involve the deployment of an educational software which is an embodiment of the Nigerian education curriculum; developed to aid all students/pupils in primary and secondary schools and also complement classroom learning as well as an examination preparatory tool.

3. OBJECTIVES OF THE PROJECT

The objectives of the project are to -:

- Promote the development of local content and application that would be used to improve the sustainability of USPF schools project.
- Bring e-learning within the reach of more Nigerian students
- Help improve the standard of ICT learning
- Reduce failure rates across all schools, particularly in the rural areas.
- Promote indigenous software developers and foster technological transfer
- Increase the use of USPF deployed ICT tools across the country with a user friendly software that have easy understanding to the students and easy training for the ICT teachers.
- Integrate secondary school students on graduation into the mainstream of ICT industry in Nigeria

4. SCOPE OF WORK

The scope of work shall include but not limited to the following:

- Carryout a survey of schools to determine the state of their ICT tools for deployment of the local content software.
- Deployment of multi-user local content software and application in USPF e-learning projects across the country and for the management of student data with e-learning content environment.
- Install and configure of the multi-user local content e-learning software and application in all the listed schools.
- Train the teachers and students of beneficiary institutions on the use and management of the e-learning local content software.
- Provide support throughout the tenure of the contract, this includes both the implementation and transition period which involve technical training for the school's support staff and comprehensive handover of all the administrative details and powers (such as software keys, super admin tools, license etc.) to the beneficiary institutions upon completion of the project to ensure programme sustainability.
- Remote monitoring, support and maintenance of the beneficiary institutions for a period of twelve (12) months.

5. DELIVERABLES

The deliverables shall include:

- An agreed work plan for the project
- Local content instructional material aimed at helping the pupils/student to quickly understand key educational concepts in mathematics, science subjects etc.
- Report showing deployment, testing and commissioning of local content application for use in USPF e-learning projects.
- Report showing training of students and teachers on the use of local content.

- Quarterly report evidencing monitoring and evaluation on the use of the local content applications.
- Detailed final report on the implementation (hard and soft copies) showing outcome of monitoring and evaluation within the contract implementation period.
- Detailed final report in hard and soft copies after 12 months support period showing the outcome of the support, monitoring and evaluation of the project.

6. PROPRIETARY RIGHTS

In recognition of proprietary rights, all bids would be treated with confidentiality, and the proposals would be evaluated based on merit and compatibility with USPF projects.

7. ELIGIBILITY CRITERIA

Interested qualified companies are required to demonstrate the following competencies:

A. Specific Condition:

The firm must:

- be a structured company that possess both human and material resources such as equipment, infrastructure and have in place an organized multiple teams to execute the project within the contract period
- submit to the USPF a verifiable sample of the solution and associated tools for the project
